## PROFESSIONAL SUMMARY

---

Frontend-focused Full Stack Engineer with 5+ years of experience building high-impact, production-ready web apps. I've led teams, shipped scalable features, and care deeply about performance, UX, and code quality. Recently led a multi-tenant app rewrite and drove performance wins that cut load times by 68% and boosted engagement by 36%. I work closely with design and product to turn ideas into fast, reliable, and smooth user experiences.

## TECHNICAL SKILLS

---

**Frontend:** React, Next.js, JavaScript, TypeScript, Redux, Zustand, Tailwind CSS, MUI, Shadcn, HTML5, CSS3

**Backend:** Node.js, Express, GraphQL, REST, Python, Django

**Database & Cloud:** PostgreSQL, MongoDB, Firebase, AWS, GCP, Docker

**Testing & Tooling:** Jest, Sentry, Winston, ESLint, Prettier, Husky, Git, CI/CD, TDD, Agile

## EXPERIENCE

---

### Software Engineer

Feb.2022 – Present

TIFIN

Bangalore, India

- **Led a multi-tenant app** rewrite to modernize architecture and decouple tenant logic. **Delivered to prod in two months** through fast-paced weekly sprints, with **zero post-launch blockers**.
- **Managed a 8-member team** while contributing as the lead IC and handled planning, mentoring, code reviews, and delivery across critical modules
- Led full-stack Tax Optimization feature that let advisors contribute external holdings for tax benefits. Built end-to-end custodial data flows, contribution handling, and a DocuSign-based consent system; **led to 122+ new advisor signups and increased contribution flow usage**
- **Cut advisor-client API latency by 85% (7s → 1s)** by identifying N+1 query issues; redesigned the data flow and UI to decouple nested payloads, improving perceived performance and overall page responsiveness
- Launched a highly requested Impact Reports feature, which quickly became the **#1 driver of repeat logins**, thereby **helping boost user engagement by 36%**
- **Standardized GitLab Merge Requests** with structured templates, improving review clarity and consistency across teams, and later **adopted org-wide after VP endorsement**

### Software Engineer

Jan. 2021 – Feb. 2022

1stMain (acquired by TIFIN)

Bangalore, India

- Built MVP for a Will-generation platform, **onboarding 45+ beta users** and informing product-market fit
- Created frontend and CMS for a **jewelry E-Commerce** platform, integrating Shopify for smooth order sync
- Developed a co-working space platform generating **1M+ INR in daily revenue**, ensuring the codebase supported high transaction volumes and ongoing business needs
- Implemented **Firebase stack** (Firestore, Functions, Hosting) with **Pub/Sub scheduled jobs** to automate backend ops
- **Accelerated release cycles by 35%** through automated **CI/CD** pipelines using GitHub workflows

### Full Stack Developer

Aug. 2020 – Nov.2020

HealthyKID

Bangalore, India

- Built a dashboard for managing health records, **improving accessibility for 200+ schools**
- Integrated **RazorPay** for school registration, enhancing payment efficiency

## CORE COMPETENCIES

---

Technical Leadership • Cross-functional Collaboration • Problem-Solving • Strong Communication • Agile Methodology • Technical Mentorship • Project Management • Adaptability

## EDUCATION

---

### Reva University

Bachelor of Technology (9.3 CGPA)

Bangalore, India

Aug. 2015 – Aug 2019
